## Precision

**SPOTLIGHT**

January 26<sup>th</sup>, 2022

Edition: 6

Wolf Farms Precision is proud to announce the addition of five new product lines to better serve our growers. We feel that each of these product lines bring a unique solution to the problems they aim to solve, and they complement our portfolio here at Wolf Farms Precision.

### Product Focus

Planter toolbars, planter row units, strip-till bars, high-speed tillage implements, and header carts

Ag solutions including strip-till components, cultivators, rate controllers, stalk shredders, cover crop seeders, and NH<sub>3</sub> Nitro-Lert monitoring

Planting equipment including Twister closing wheels, Row cleaners. Fertilizer equipment, Harvest equipment including Stalk Devastators, and Toolbars.

High resolution cameras and viewing equipment including screens, ISO screen packages, BlueTooth options and more.

Planting products, side-dress products such as Y-Drop, Auto-steer assisting products, harvesting/tillage and NH<sub>3</sub> products.

If you have any questions regarding these new product lines, or any of the lines that we carry, we would be happy to sit down to consult with you.
